

# HOANG MINH TAM (TOM)

Mobile Engineer | Flutter | Kotlin | Android

Ha Dong, Ha Noi, Viet Nam | (+84) 037 526 6302 | minhtamhoang207@gmail.com  
linkedin.com/in/tamhm207 | github.com/minhtamhoang207

## PROFESSIONAL PROFILE

Mobile Engineer with 5+ years of experience delivering Flutter and native Android products across healthcare, internal communication, AI camera, marketplace, and e-commerce domains. Strong in Kotlin, Dart, REST API integration, real-time communication, state management, and automated testing, with a product-minded approach to reliable, intuitive mobile experiences.

## CORE STRENGTHS

Mobile: Flutter, Dart, Kotlin, Java, Android SDK, Bloc, GetX  
Integration: REST APIs, Firebase, Twilio, MQTT, OneSignal, deep links  
Quality & delivery: unit/widget/integration testing, Git, GitLab, Jira, Agile/Scrum

## EXPERIENCE

### Rikkeisoft

Jun 2023 - Jul 2026

#### Mobile Developer | Ha Noi, Viet Nam

- Delivered production Flutter and Kotlin applications for healthcare monitoring and internal communication.
- Implemented REST API integrations, real-time messaging and voice features, and maintainable mobile UI flows.
- Built unit, widget, and integration tests to improve release confidence and reduce regressions.
- Worked cross-functionally with design, backend, and QA teams in Agile delivery cycles.

### MOR Software

Oct 2021 - Apr 2023

#### Mobile Developer | Ha Noi, Viet Nam

- Developed Flutter applications for healthcare communication and employee reward platforms.
- Applied Bloc state management and integrated Firebase, OneSignal, Twilio, and Dynamic Links.
- Improved UI flows and supported stable feature delivery across Android and iOS releases.

### VuongSoft Company

Jan 2021 - Aug 2021

#### Mobile Developer | Ha Noi, Viet Nam

- Built Flutter applications for a job marketplace and fashion e-commerce experience.
- Integrated REST APIs, Firebase Storage, and Bloc while maintaining performance and code quality.

## SELECTED PRODUCTS

---

### Staff App | Internal communication platform

Oct 2023 - Feb 2025

Kotlin | Twilio | REST API

- Developed direct and group messaging plus voice calling for internal communication.
- Translated product designs into maintainable Android UI and supported cross-team integration.

### Zensoku | Asthma management application

Oct 2023 - Jun 2024

Flutter | REST API | Automated testing

- Implemented symptom tracking, appointment booking, and treatment-goal workflows.
- Added unit, widget, and integration coverage for dependable releases.

### Infinity Camera | AI camera and robot-control application

Jun 2023 - Oct 2023

Flutter | GetX | MQTT

- Integrated live camera mapping, facial-recognition workflows, and robot control through MQTT.

### Kuraseru | Healthcare messaging application

Feb 2022 - Mar 2023

Flutter | Twilio | Firebase | Bloc

- Enabled real-time chat and voice communication between nurses and patients.
- Managed notifications and deep-link journeys with OneSignal and Firebase Dynamic Links.
